

## **Pain Fellow Position**

Pain Medicine of South Australia is a specialist pain medicine service/provider that works in a collaborative multi-disciplinary multi-modal pain management service with on-site physiotherapy, psychology and nursing staff. Currently consulting at two sites, there is a mixture of patients managed, either privately funded, workers compensation or third party/motor vehicle accident compensation patients. We offer on-site medical consults as well as consults in private hospitals around Adelaide for patients with a variety of conditions including cancer and non-cancer pain and acute pain, particularly post-operative pain syndrome.

Our team require a further faculty of pain medicine accredited specialist seeking full or part-time work in this area.

Opportunities within the service include the rehabilitation of patients with complex injuries in the workers compensation and privately funded areas and interventional pain management procedures including neuromodulation.

The suitable candidate will be able to manage patients with a wide variety of acute, chronic and cancer pain, directing a multidisciplinary team in rehabilitative management, as well as appropriate counselling for families, third party providers and engaging with other health care professionals where required, particularly as inpatient management. Formal training in interventional pain procedures can be provided if desired.

If you are looking for a challenge and have an interest in a broad spectrum of pain management and the conditions so encountered, please feel free to contact us to discuss the role or submit a cover letter and CV to: [admin@painmedsa.com](mailto:admin@painmedsa.com)

All applications will be contacted by phone to discuss the role and prospects for a position with our service.
