Pain Medicine Fellow (Practice Development Stage) 2017

Expressions of Interest are called from trainees who will be in the Practice Development Stage of training in 2017.

The position is located within QPain, a private pain management practice based at St. Vincent’s Private Hospital Brisbane. The practice is aligned with the multidisciplinary pain management program at St Vincent’s Hospital Brisbane. The hospital’s core specialties include pain medicine, rehabilitation medicine, and palliative care.

The successful applicant should have a high degree of interpersonal skills, communications skills, and have a commitment to a multidisciplinary practice.

The role involves active participation in outpatient clinics, inpatient care, case conferences, and procedural lists. There is the potential to enter the practice as an associate or partner after completion of the Practice Development Stage.

The successful applicant will be expected to have their pathway approved by The Faculty Assessor prospectively. Assistance with this process can be provided.

For more details or to submit an expression of interest, please contact Dr Frank Thomas at (07) 3391 7111 or email fthomas@qpain.com.au
