

Private Practice Pain Medicine Specialist on the Northern Beaches of Sydney

Employer: The Northern Beaches Psychiatrist and Psychologist Family Medical Practice

Location: Dee Why, Northern Beaches, Sydney, NSW

Remuneration: Very lucrative billings, perhaps up to \$700,000 (less fee percentage) for full time.

Required: **Pain Medicine Specialist.** Must have a Fellowship of the Faculty of Pain Medicine (FFPMANZCA). It does not matter which specialization was acquired prior to your FPM qualification. Indeed it need not be as a Psychiatrist. We have a Neuropsychiatrist, Adult Psychiatrist, Exercise Physiologist and three Clinical Psychologists at our 10 room practice.

Start Date: Immediate, but will need to be graduated according to referral flow. No closing date for the application applies. It will exist until filled. We have long waiting lists for our specialists and have received referrals from over 150 GP's in the area. The reputation of our practice in the area is excellent. Our expectations are that full-time status will occur easily within a couple of months. We can heavily advertise your presence in advance of the starting date to ensure an efficient introduction.

Looking for the perfect job in paradise?

Location ✓ Lifestyle ✓ Money ✓ Friendly ✓ Innovative Design ✓
State of the Art ✓ All-inclusive ✓

Welcome to the **brand new** (completed August 15'), purpose built, yet smallish and quirky

Specialist/Psychiatry and Psychology practice on the Northern Beaches of Sydney!

Why not live at Manly Beach or perhaps Avalon and drive less than 10 minutes to work? “The Beaches....eight miles from Sydney and one hundred miles from care”. It’s the best lifestyle to be found – simples.

Why us?

- Better rewards as owned and managed by a Specialist, Dr Russell McGregor (Psychiatrist) - not a large multinational health conglomerate using recruitment agencies.
- Probably the best receiving Billings Rate on offer anywhere – **75.00%** (ie: fee percentage 25.00% to us). The average G.P in Australia receives 62% (less in Sydney) according to a recent survey by the AMA. We will charge AMA rates, as the demographic could easily support this, which will provide extremely lucrative earnings.
- The practice is run by Angela Mason-Lynch, the NSW President of the AAPM (Australian Association of Practice Managers).
- The premises have been stunningly designed by “The Bold Collective”, an Award winning interior design company.
- We have a wide ranging existing referral base from most GP’s in the area. Personal liaison with G.P’s for referrals will be performed by me. So you need only see patients.

What do we offer?

Fully equipped office and stationary. Teleconferencing and meeting room facilities. Secretary for meet and greet, billings, phone answering, mailing and appointments.

“State of the Art” computer systems and software including SMS texting to reduce no shows, Dragon Medical II Dictaphone software, Up to Date, internet, response letter encryption, phones/fax and paperless filing (if required), home encryption access to letter writing program and appointment schedule, SEO and website.

Legal, secure file storage for six years (as mandated).

Please call anytime 24/7 and have a friendly chat with Russell – how about right now? I will attempt to answer any question you may have and will be most pleased to hear from you. New graduates are welcome.

Our aim is to provide a modern, friendly and well run practice with fantastic remuneration so you will stay long-term.
