Managing Acute Pain - A Guide for Patients

This booklet talks about acute pain and why pain should be managed properly. It was derived from the document *Acute Pain Management: Scientific Evidence (Second Edition)*, which was developed by the Australian and New Zealand College of Anaesthetists and the Faculty of Pain Medicine. The booklet aims to help patients, their families and carers understand why pain control is important and how to play an active role in choosing options for treating their pain.

Cost: A\$1.50 per copy plus GST (available for purchase in multiples of 50 only)
Delivery to be quoted separately (contact Faculty Office for quote)
