

Practice Development Stage Supervisor Agreement

Background

The Faculty of Pain Medicine (FPM) requires supervised training with the assistance of qualified supervisors. The Faculty requires assessment decisions to be made transparently by the practice development stage supervisor.

All Fellows who act in good faith and within Faculty policies while carrying out Faculty duties will be indemnified for those actions. In any perceived contentious matter there must be a complete written record of the action taken and the reasons for it. It is essential that there should be early discussion with the general manager, FPM whenever there are potential difficulties that may involve legal action.

This document sets out rights and obligations of the FPM practice development stage supervisor. It must be signed prior to the nominated trainee commencing the practice development stage and the position is approved by the Faculty assessor. The original document must be returned to the Faculty and a copy retained by the practice development stage supervisor. The appointment is valid for duration that the nominated trainee is completing the practice development stage. For each trainee supervised by the practice development stage supervisor a new agreement must be signed and returned to the Faculty.
